

INSURANCE GUIDELINES

If your insurance company requires a referral for specialist care, we must have it before you are seen by the physician. If you do not have the required referral at the time of your visit, you may either reschedule your appointment or by signing this waiver you will be responsible for the entire amount.

If you change your primary care physician (PCP) during your medical treatment with Dr Martin Aldrich please notify our office so the proper referral may be obtained.

I have read and understand the statements above and agree.
